22th ESPEN Course of Clinical Nutrition and Metabolic Care

November 1 - 6, 2015 • Bucharest, Romania
Rin Grand Hotel Conference Center
Bucharest

Bucharest is the capital municipality, cultural, industrial, and financial centre of Romania. It is the largest city in Romania and located in the southeast of the country.

Bucharest was first mentioned in documents in 1459. It became the capital of Romania in 1862 and is the centre of Romanian media, culture and art. Its architecture is a mix of historical (neo-classical), interbellum (Bauhaus and art deco), communist-era and modern. In the period between the two World Wars, the city's elegant architecture and the sophistication of its elite earned Bucharest the nickname of “Little Paris”. Although buildings and districts in the historic city centre were heavily damaged or destroyed by war, earthquakes. In recent years, the city has been experiencing an economic and cultural boom.

Economically, Bucharest is the most prosperous city in Romania and is one of the main industrial centres and transportation hubs of Eastern Europe. The city has big convention facilities, educational institutes, cultural venues, traditional “shopping arcades” and recreational areas.

Etymology

The name of București has an uncertain origin: tradition connects the founding of Bucharest with the name of Bucur who was either a prince, an outlaw, a fisherman, a shepherd, or a hunter, according to different legends. In Romanian the word stem bucurie means ‘joy’, (“happiness”) and it is believed to be of Dacian origin.

There are other etymologies given by early scholars, including the one of an Ottoman traveler, Evliya Çelebi, who said that Bucharest was named after a certain “Abu-Kariş”, from the tribe of “Bani-Kureiş”. In 1781, Franz Sulzer claimed that it was related to bucurie (joy), bucuros (joyful) or a se bucura (to become joyful), while an early 19th-century book published in Vienna assumed its name has been derived from “Bukovie”, a beech forest.

Bucharest is the 6th largest capital in the European Union.
- The city’s Palace of the Parliament is the second-largest building in the world.
- Bucharest’s surface transit network, run by Regia Autonoma de Transport București, is the 4th largest in Europe.
- Museum of the Romanian Peasant was declared the European Museum of the Year in 1996.
- The first omnibus horses were opened in Bucharest in 1840, being among the first cities in Europe that had such means of transport.
- The first road in Bucharest was Wood Road, Victoria today. Victory Road was paved with tree trunks.
- Lipscani street name comes from the city of Leipzig in Germany, which reminds of the extremely dynamic and commercial life of Wallachia.
- Over 20 churches and monasteries were destroyed, partially or completely, during communism. Among the oldest are: Crangasi Church (1564), White-draper Church (1568), Mihai Voda Monastery (1591) and others.
- Novotel entrance façade is a copy of the former façade of the National Theatre. During the Second World War, specifically on 26 August 1944, a German aircraft dropped a bomb with the intention to destroy the Palace of Phones, but the bomb missed the target and fell on the National Theatre.
- Bucharest Telephone Palace was built between 1929-1934. The architect was inspired by the American skyscrapers and was the tallest building in Bucharest up till 1970.
- Athénée Palace hotel, now a Hilton, may have been Europe’s most notorious den of spies in the years leading up to World War II.
- Henri Marie Coanda was born in Bucharest on 7 June 1886. He was a Romanian inventor, aerodynamics pioneer and builder of an experimental aircraft, the Coanda-1910 described as the world’s first jet. He also invented a great number of devices, designed a “flying saucer” and discovered the Coanda effect of fluid dynamics.
